

Basic Cell Culture SHSY5Y

Basic Culture Medium (BCM), 50 ml

- 42 ml EMEM
- 7,5 ml Fetal Bovine Serum
- 500 µl Pen/Strep

Keep for 6 weeks maximum

Prior to use, allow media to warm and equilibrate in an incubator to establish a proper pH balance before every step.

Grow the cells in the Basic Culture Medium at 5% CO₂ and 37°C.

Change medium every 2-3 days for maintaining SHSY5Y cells in culture
